Beautify your block in the Midtown neighborhood and help to create a cleaner and safer community! Street by street, neighbors, business owners, and volunteers will come together for community cleanups and events.

Midtown CDC Adopt-A-Block Map

Midtown's Adopt-A-Block program is an anti-litter, community-empowering program in partnership with the City of Atlantic City, our neighbors and business owners. We provide support and resources to people who want to lead the charge against heavy litter, illegal dumping, and debris in the public spaces in their neighborhood. Each block will be assigned a Block Captain to oversee its team efforts and help to guide the program's volunteers.

We provide cleaning supplies, planning support, regularly scheduled cleanups, and post-event celebrations! We will also give away prizes during each cleanup for participation AND select competitions using Keep America Beautiful guidelines. Select your block and sign up today to become a Block Captain and help to create a safer, cleaner Midtown!
